

## FACIAL ENHANCEMENTS

The number of cosmetic fillers is forever changing. The products that we currently offer in our practice are: BOTOX® Collagen, Hylaform, Restylane and Radiesse (commonly referred to as Radiance). We have listed each product in more detail below:

### **BOTOX® Cosmetic** (not a filler)

This naturally occurring chemical has been used to relax and treat twitching muscles for over a decade. Aside from younger looking skin, BOTOX® Cosmetic is a safe and effective way to improve the appearance of worry lines, frown lines, laugh lines, crow's feet and other dynamic wrinkles in a quick office visit.

### **COLLAGEN REPLACEMENT THERAPY**

One of the top-ten cosmetic procedures performed in the United States, this simple procedure can be done in under 20 minutes and is virtually painless. Collagen has been proven safe and effective for over 15 years and the results are immediate. Like your own collagen, your body gradually absorbs collagen so ongoing treatments are necessary to maintain results.

### **HYLAFORM**

Hylaform is made of collagen and hyaluronic acid. Hyaluronic acid is a natural sugar found in all living cells that attracts and binds water, hydrating your skin and giving it volume. It adds volume to your skin with no down time.

**5% discount**  
on all fillers  
for  
**November  
and  
December  
2005.**

*Not redeemable on Filler Days nor  
with any other offers.*

### **RESTYLANE**

Restylane is the new hyaluronic acid (a natural sugar) injectable filler that does not require allergy testing and lasts longer than collagen. Clinical studies have shown the average treatment results last six months or even longer. Used worldwide by plastic surgeons since 1996, Restylane is safe and effective in the treatment of moderate to severe facial wrinkles and folds and also enhances the appearance and fullness of lips.

### **RADIESSE (RADIANCE)**

Radiesse (Radiance) is unlike any other treatment. It is a completely synthetic compound comprised of microspheres of calcium hydroxylapatite, combined with an aqueous gel. When injected, the cream-like texture feels soft and natural. Unlike temporary treatments that must be repeated, Radiesse provides years of rejuvenation while restoring vitality to your face. It is gradually replaced by the body's own tissue and slowly dissolves away over several years.

### **DISCOUNTED "FILLER DAYS" COSTS:**

**Botox** - \$13.50 per unit (\$13.00/unit after 30)  
**Restylane** - 1st cc \$425; 2nd cc \$350;

2nd cc \$320 ea; 3rd & 4th cc \$300 ea

## NEW AESTHETIC TECHNOLOGY PROVEN FOR SAFETY, COMFORT AND EFFECTIVENESS:

### **THE AURORA (ELŌS) SYSTEM**

Rosacea, spider veins, sun damaged skin, age spots, and unwanted hair - these are some of the cosmetic skin conditions that increasing numbers of women and men are seeking to alleviate - often spending large amounts of money and enduring painful procedures, with mixed results.

The revolutionary new **elōs** (electro-optical synergy) technology, now offered locally by Allure Laser Center & Medispa is the safest, most effective, and comfortable solution.

The **elōs** technology is a breakthrough in cosmetic Lasers as it is the first to use a unique combination of Radio Frequency and Light to treat a wide array of skin conditions as well as the only technology that is able to remove all colors of hair (including white and grey).

Using gentle pulses of two targeted energies means better results with lower overall energy output - assuring the highest level of safety and comfort.

Call **425-216-7200** to arrange a consultation with one of our licensed Aestheticians. Be sure to ask about our fantastic introductory price on the new **Elōs** System.

### PEEL AWAY AGED AND DAMAGED SKIN FROM YOUR FACE

OBAGI offers you an effective way to restore your skin's glowing health and beauty. With counseling from your Doctor and your Aesthetician, you will be guided through a revolutionary skin care system that will help repair skin damage. This system will help to correct lines, wrinkles and other unappealing skin conditions. It will reveal your natural glowing skin tone. Your skin's natural ability to restore itself will be stimulated at the cellular level.

We recommend that our patients be on a pre-operative skin care regime specific for each individual's skin type for about 4 to 6 weeks prior to having the **Obagi Blue Peel**. This process prepares the skin to receive the blue peel to insure better results and promote quicker healing while decreasing the chance for complications. Topical creams, Retin A and hydroquinone are often used.

The **Obagi Blue Peel** takes about 20 minutes to apply and the process is tailored to your skin's specific needs. The "blue peel" is a low concentration of the chemical trichloroacetic acid (TCA) mixed with a special blue base to allow slow penetration. It effectively removes thin surface layers of aged and damaged skin.

After the procedure, you will experience light swelling and your skin will begin to peel within 2 to 3 days. Over the next several days, you will continue to peel and completely heal within 7 to 10 days. It is advised to refrain from using make up until the peeling process is completed.

When the peeling process is completely finished, you will notice dramatic results in your complexion. Your skin's appearance will continue to improve over the next 4 to 6 weeks, becoming clearer, smoother, firmer, healthier and more youthful looking. The peels can be repeated in 6 to 8 week intervals until your desired goal is reached.

Keeping your skin's new healthy glow and youthful appearance is an ongoing process. The **Obagi Nu-Derm** restoration system is an at-home program designed to promote long-term overall skin health and work safely and effectively in conjunction with the **Blue Peel**.
